VIDEO COLLABORATION SOLUTIONS

ENHANCING VIDEO COLLABORATION

At Logitech, our goal is to make high-quality video meetings accessible and affordable to every business and every individual. We want to video-enable every meeting room, every workspace, and every home. This is the future of work. Work that is more engaging, flexible, and collaborative on any platform. Work that helps people make a real connection, wherever they are in the world.

Ensuring business continuity, employee welfare and workforce productivity are all top priorities for companies of all sizes. Logitech devices combined with your preferred cloud conferencing provider allow your team to safely collaborate and make quick business decisions through high-quality meeting experiences from any location.

Our people-first mindset is why we're loved by end-users and the first choice of IT leaders. With beautifully simple solutions designed and priced for scale, we continually raise the bar on customer experience.

Logitech® solutions empower workplace collaboration. We help teams collaborate from anywhere, without compromising on productivity or continuity.

Logitech ConferenceCams and Webcams are certified and/or compatible with Microsoft Skype® For Business. Microsoft Teams, Google® Hangouts™ Meet, Zoom, BlueJeans, GoToMeeting®, WebEx™, and other video conferencing, streaming, and recording applications that support USB cameras and audio devices. Please visit our product pages on www.logitech.com/vc for more information.

COMPLETE ROOM SOLUTIONS

Logitech room solutions are pre-configured for meeting rooms of virtually any size or layout. Room solutions include the following:

- ✓ Logitech ultra-HD room-optimized camera or video bar with motorized pan and tilt and AI technologies like auto-framing
- ✓ Logitech Tap or Tap IP meeting room touch controller for a simple one-touch-to-join meeting experience
- ✓ Compute platform, provided in one of two configurations:
 - As a mini PC or RoomMate computing appliance
 - Built into the video bar when deployed as a standalone appliance
- ✓ Sync device management platform, which works alongside your video service admin tool to optimize meeting room devices and deliver AI-powered room analytics

To keep the meeting space clean and installation secure, room solution components feature flexible mounting options and enterprise-grade cable management. You can also enhance the meeting room solution with available software and hardware options that include:

- ✓ Scribe AI-powered whiteboard camera designed to effortlessly share whiteboard content into any video meeting
- ✓ Tap Scheduler to help employees in the office easily find or reserve a meeting room
- ✓ Accessories such as expansion mics, mounts, cabling, and Logitech Swytch

Logitech ConferenceCams and Webcams are certified and/or compatible with Microsoft Skype® For Business. Microsoft Teams, Google® Hangouts™ Meet, Zoom, BlueJeans, GoToMeeting®, WebEx™, and other video conferencing, streaming, and recording applications that support USB cameras and audio devices. Please visit our product pages on www.logitech.com/vc for more information.

Logitech room solutions are certified for or compatible with leading video collaboration services, including:

LOGITECH ROOMMATE

As a purpose-built appliance, RoomMate unites computing power and video conferencing software in a compact form factor. By connecting RoomMate to USB conferencecams like Logitech Rally Plus and up to two HD displays, IT can deploy Zoom Rooms Appliances, Microsoft Teams Rooms on Android, and other supported solutions in large to extra-large rooms. RoomMate is also compatible with Logitech MeetUp for small rooms.

Part #: 950-000084

Resolution: With computing power and video conferencing software together in a dedicated appliance, RoomMate makes it easy to deploy Zoom Rooms Appliances, Microsoft Teams Rooms on Android, and others with Logitech conferencecams like Rally Plus.

LOGITECH TAP

Deliver one-touch join, calendar integration, instant content sharing, and always-on readiness to meeting rooms. With a sleek design, silent operation, and motion sensor for always-on readiness, Tap brings ease and convenience to video collaboration.

Tap is certified as a touch controller for video conferencing room solutions: Google Meet, GoToRoom, Microsoft Teams Rooms, Pexip Room, RingCentral Rooms, Zoom Rooms.

Part #: Logitech Tap with Cat5e Kit: 939-001950

- 10.1" diagonal screen with 14° display angle
- Oleophobic and anti-glare coating • 1280 x 800 resolution

LOGITECH TAP IP

Meeting room touch controller connected via the network that delivers one-touch join and easy content-sharing, and is simple to set up. With a single Power over Ethernet connections, clean and secure cabling, and multiple mounting options, Tap IP conveniently installed and stays up and running for the next video meeting. Included with room solutions that use IP-connected touch controllers.

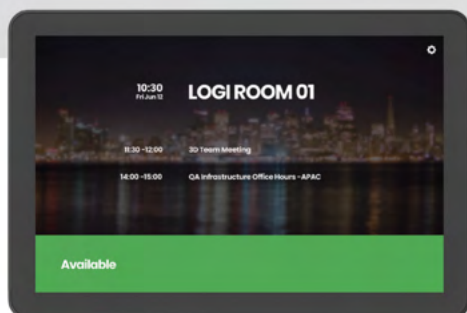

Part #: Graphite: 952-000085
White: 952-000088

- 10.1" display, 14 degrees display angle, Oleophobic coating, motion sensor for always-on readiness

Logitech ConferenceCams and Webcams are certified and/or compatible with Microsoft Skype® For Business. Microsoft Teams, Google® Hangouts™ Meet, Zoom, BlueJeans, GoToMeeting®, WebEx™, and other video conferencing, streaming, and recording applications that support USB cameras and audio devices. Please visit our product pages on www.logitech.com/vc for more information.

LOGITECH TAP SCHEDULER

Purpose-built scheduling panel for meeting spaces. Indicates availability from a distance and displays meeting details up close. Claim the space for ad hoc meetings, or book ahead for scheduled sessions. Clean cable management and included mounts allow Tap Scheduler to be professionally installed outside any meeting space for fast deployment.

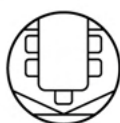

Part #: Graphite: 952-000091
White: 952-000094

- 10.1" diagonal, flat display angle (on mounting surface)
- Oleophobic coating
- 10 points multi-touch

LOGITECH SIGHT

Working in tandem with **Rally Bar** or **Rally Bar Mini**, Sight gives each remote participant their own seat at the table. Powered by AI, Sight automatically identifies and frames speakers for a better remote experience.

Part #: 986-000024 (Graphite UC Logi Dock), 986-000020 (Graphite MS TEAMS Logi Dock),
986-000030 (White UC Logi Dock)

Warranty: 2 years

No IT Headaches	Manage Meetings	Clearer Workspace & Less Cabling	Plenty of Power	Professional Audio
A single device instead of separate dock and speakerphone. Certified to work, straight out of the box.	Instantly join scheduled meetings and mute your audio and video with easy touch controls.	Connect everything to the dock through three USB-C and two USB-A ports, plus HDMI and DisplayPort connections.	Charge your PC or Mac through Logi Dock's USB-C upstream port, which delivers up to 100W of power.	High quality speakers and six microphones make team calls clearer — and music better.

Logitech ConferenceCams and Webcams are certified and/or compatible with Microsoft Skype® For Business. Microsoft Teams, Google® Hangouts™ Meet, Zoom, BlueJeans, GoToMeeting®, WebEx™, and other video conferencing, streaming, and recording applications that support USB cameras and audio devices. Please visit our product pages on www.logitech.com/vc for more information.

SOFTWARE

Unlock the full potential of your workforce and workspace with Logitech software solutions. Our software simplifies device management and empowers employees to stay productive from anywhere with advanced device control, innovative device intelligence, and real-time insights. Logitech software helps you get more out of your video collaboration devices, save time for IT, and make meetings easier for employees.

CollabOS

The unifying operating system running on select Logitech video collaboration devices, enabling device features and partner platform integrations.

Sync

The remote workspace management software supporting video conferencing device management. Sync also provides device and room insights and desk booking management.

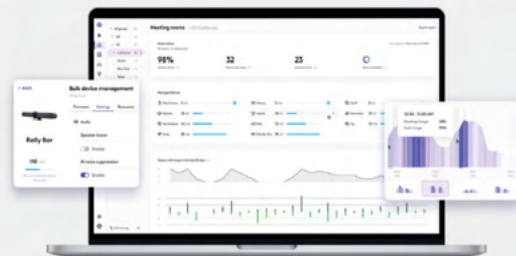

Tune

The end-user interface and enablement. Tune is the end-user interface and enablement.

Simplify your workspace management

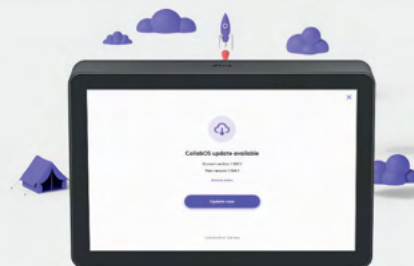

Reduce the time and effort needed to set up and manage devices for conference rooms, homes, and hotdesks.

- Simplified provisioning
- Controlled update validation and cascading
- Device monitoring
- Hotdesking

Get the best out of what you have

Watch your devices get smarter through regular updates that add advanced features, enable compatibility with partners like Zoom, Microsoft Teams, and Google, and unlock integration with other Logitech devices.

Logitech ConferenceCams and Webcams are certified and/or compatible with Microsoft Skype® For Business. Microsoft Teams, Google® Hangouts™ Meet, Zoom, BlueJeans, GoToMeeting®, WebEx™, and other video conferencing, streaming, and recording applications that support USB cameras and audio devices. Please visit our product pages on www.logitech.com/vc for more information.

LOGITECH RIGHTSENSE™

Logitech RightSense™ proactive technologies automate and enhance the meeting experience.

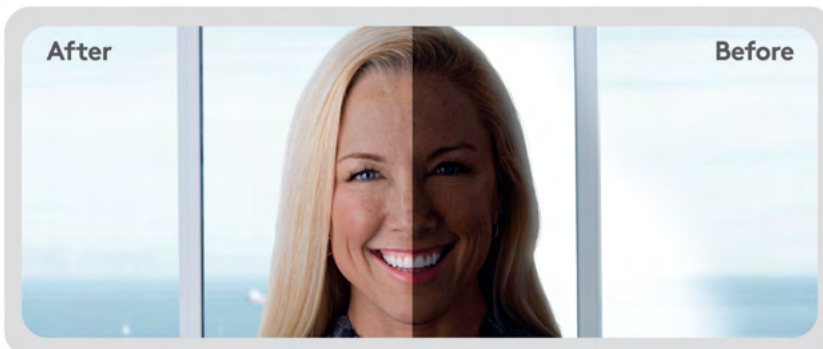

LOGITECH RIGHTSIGHT™ – Camera Control

- **Auto-Framing:**
Automates camera control to perfectly frame participants in rooms of all shapes and sizes
- **Convenience with Control:**
Hands-free convenience with manual control when desired

Devices that support RightSight 2 offer multiple viewing modes that ensure that meeting experiences are tailored to fit the size, orientation, and occupancy of the room.

LOGITECH RIGHTLIGHT™ – Light & Color

- **Natural Palette:**
Optimizes color and saturation for natural results across all skin tones
- **Even Lighting:**
Reduces glare and noise while brightening shadows for even, balanced images
- **Facial Optimization:**
Automatic adjustments optimize for faces rather than objects and surfaces

LOGITECH RIGHTSOUND™ – Vocal Clarity

- **Life-Like Clarity:**
Components and algorithms that suppress noise, echo, and double-talk
- **Adapts to Every Voice:**
Auto-levels voices for clear and comfortable audio
- **Reaches Every Seat:**
Mic beamforming and modularity to pick up voices at every seating position

SERVICES

Ensure your video collaboration solutions are always ready and operational when your teams need them. Logitech services help to increase uptime and reduce the burden on IT.
